Shine at Sherman...

Roger Sherman School is committed to facilitating the development of the whole child by creating an environment in which all students will achieve success and become productive individuals.

Success will be fostered through meeting the academic needs of students with regard to individual learning styles and instructional levels. The staff, recognizing the changing nature of society, education, and the profession, will utilize current knowledge and ongoing assessment to enhance the learning process. All Roger Sherman students will receive equal educational opportunities every day.

Providing an environment that promotes self-esteem and respect for the home and school community, we will strive to recognize, accept, and respect the diversity of students with regard to cultural and family backgrounds.

We aspire to make Roger Sherman School an integral part of the community, building a relationship of mutual support, trust and respect.
